

## Saddleback College Class Registration

If you are interested in taking a course at Saddleback College, please follow the steps below.

**Important Note:** Some colleges and universities may not accept college course work for transfer credit if that course appears on your high school transcript. If you do not need the credits in any way for graduation, it is often best to simply take the class and not list it on the high school transcript. Later, you can list the course on your college application and send an official transcript directly from Saddleback College at the appropriate time.

Go to [www.saddleback.edu](http://www.saddleback.edu)

1. Click **Class Schedule**
2. Click appropriate session: **fall, winter, spring, or summer**. Check first to see if the class you want to take is being offered. Juniors and seniors, who take a Saddleback class as their 5<sup>th</sup> class during the fall or spring semesters, must complete a **5<sup>th</sup> Class Contract** with their Academic Advisor. The class must also be listed on the **Concurrent College Course List** available in the Guidance Office. The course will appear on the high school transcript. The course grade will count in the GPA and will not be weighted.
3. Click: **Admissions**.
4. Click: **Apply for Admission**.
5. Click: **Application Manager** and complete the registration information first.
6. Follow the directions to complete the online application.
7. Print out the confirmation/signature page.
8. Click: [Special Admission Request for K-12 students](#) 📄. Be sure to download the **High School form**.
9. Complete the form. Student and parent need to sign the form before it is turned into your Academic Advisor for approval. The advisor will forward it to the Assistant Principal, Guidance and Curriculum for approval. The school seal will be affixed and the form will be placed in the **student pick up box** in Guidance. *Please allow at least 48 hours turn around time.*

Stop by Guidance to pick up an unofficial transcript.

The **student** must take the completed form along with the confirmation page and the unofficial transcript to the admissions office at Saddleback. Parents are not allowed to register for their child.

Saddleback will schedule a time for the students to take both English and math matriculation tests.

Saddleback will give the student a permit to register with a date and time to complete online registration for a specific class. Students may only enroll for courses listed on the permit.

# Course List

Revised 11/21/06

## CAPISTRANO UNIFIED SCHOOL DISTRICT

### Approved Concurrent College Studies Course List

#### Saddleback College

Students may enroll in any of the courses listed below for elective credit. The first group of courses may also be used as transfer credits to either the University of California or the California State University systems. The second group of courses is intended either as advanced specialized study or workplace preparation.

Should a student wish to use a SBCC course as his/her 5<sup>th</sup> high school class, the class must be from this list. The student must also complete a *Saddleback Contract* (available on the THS website.) The course will appear on the high school transcript. The course grade will count in the GPA and it will not be weighted.

**Important Note:** Some colleges and universities may not accept college course work for transfer credit if that course appears on your high school transcript.

Students must download and complete the *Special Admission Request K-12 Students* form from the SBCC website. Signatures must be obtained from their Academic Advisor as well as a school administrator before the registration process can begin at SBCC.
